## **Reasons for Allowance**

## Allowable Subject Matter

Claims 2-9 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest a second game state determining means for determining and selecting in advance the current game states on the basis of the subsequent game states. The prior art only discloses determining both the current game states and the subsequent game states separately based on random number selection. Furthermore, the prior art does not teach of continuing to notify the game player of the identical game state without interruption when the current game state is identical to the subsequent game states. The prior art combination of Sunaga et al. and Kaufman, discloses different types of game states, therefore, they can not be identical. The prior art also lacks in storing variation values each showing a relationship between the current game state and the subsequent game state. No such storage means exists in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3713

## Response to Arguments

Based on the amended claim language, claims 2-9 are allowed.
